These young Kenyan women have the “it” factor. I have rarely seen or heard a musical ensemble that excited my artistic soul to the level of Moipei’s performances. Their flawless intonation, vocal blending, perfect rhythmic sense, and extraordinary harmonic arrangements are gifts rarely heard in the popular genre of music. It is truly impossible for me to exaggerate their brilliance.

“They have become as iconic as Kenya’s sportsmen and women but  
for a different kind of muscle ... their vocal cords.”

## ***NATION TV KENYA***

I first heard about the singing group MOIPEI through Matthew Inge. Nothing he told me about these three extraordinary women, however, could have adequately prepared me for the thrill of working with them in person. They are three of the best musicians I have ever known, and a joy to work with. Their attention to detail, grasp of different styles, outstanding vocal arrangements, stunning vocal abilities, and exemplary professionalism equals and surpasses many of the people I have ever worked with.
